Independent Auditor's Report

To the Board of Directors of
INFACT (d/b/a Corporate Accountability):

Opinion

We have audited the financial statements of INFACT (d/b/a Corporate Accountability) (the "Organization"), which comprise the statements of financial position as of June 30, 2026 and 2025, and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as of June 30, 2026 and 2025, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Withum Smith + Brown, PC

The Notes to Financial Statements are an integral part of these statements.

1. Organization

INFACT d/b/a Corporate Accountability (the "Organization") is a not-for-profit organization incorporated in Minnesota. Its goal is to educate the public about life-threatening abuses by global corporations, including interference in public policymaking. The Organization's headquarters are located in Boston, Massachusetts.

2. Summary of Significant Accounting Policies

a. Basis of Accounting and Reporting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The significant accounting policies followed by the Organization are described below to enhance the usefulness of the financial statements to the reader.

The Organization's net assets (excess of its assets over liabilities) and its revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions.

The statements of financial position present two classes of net assets (net assets without donor restrictions and net assets with donor restrictions) and the statements of activities and changes in net assets display the change in each class of net assets. The classes of net assets are reported as follows:

Without Donor Restrictions: Net assets that are not restricted by donor-imposed restrictions and may be expensed for any purpose in performing the objectives of the Organization. These net assets may be used at the discretion of the Organization's management or board of directors.

With Donor Restrictions: Net assets that are subject to stipulations imposed by donors and grantors. Some restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

b. Measure of Operations

The statements of activities report all changes in net assets, including changes in net assets without donor restrictions from operating and nonoperating activities. Operating revenues consist of those items attributable to the Organization's ongoing purpose. Nonoperating activities are limited to resources that generate returns from investments and other activities considered to be of a more unusual or nonrecurring nature.

c. Cash and Equivalents

Cash and equivalents include all monies in banks and highly liquid investments with maturities of three months or less.

d. Promises to Give

Unconditional promises to give are included in the financial statements as promises to give and revenue for the appropriate net asset category. Promises to give are recorded at net realizable value if due within one year or at the present value of the expected future cash flows using a risk-free interest rate and commensurate with the date of the donation when not due within one year. Conditional promises to give are not recognized until the conditions on which they depend are substantially met. As of June 30, 2026, management has confidence that all promises to give will be fulfilled.

e. Property and Equipment

Property and equipment and leasehold improvements are stated at cost at the date of purchase or, for donated assets, at fair value at the date of donation, less accumulated depreciation. Amortization of leasehold improvements is calculated utilizing the shorter of the economic life of the asset or remaining lease term. Depreciation is calculated using the straight-line method over the lesser of the estimated useful lives of the assets or the lease term. The useful lives range from three to seven years. The Organization's policy is to capitalize property and equipment acquired and expense normal repairs and maintenance as incurred. The Organization's management periodically evaluates whether events or circumstances have occurred indicating that the carrying amount of long-lived assets may not be recovered.

f. Investments

Investments are stated at fair value. Publicly traded securities are valued based upon quoted market prices at the close of business on the last day of the fiscal year. Unrealized gains and losses are included in the change in net assets. Realized investment gains and losses are determined by using the average cost of the investment. Purchases and sales of investments are recorded at cost on the trade date.

Securities received as gifts are recorded at fair value at the date of the gift.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of uncertainty related to changes in interest rates, market volatility, and credit risks, it is at least reasonably possible that changes in these risks could materially affect the fair value of investments and related activity reported on the financial statements.

g. Leases

The Organization categorizes leases with contractual terms longer than 12 months as either operating or finance. Finance leases are generally those leases that allow the Organization to substantially utilize or pay for the entire asset over its estimated life. All other leases are categorized as operating leases. Leases with contractual terms of 12 months or less are not recorded on the statements of financial position. There were no finance leases for both years ended June 30, 2026 and 2025.

Lease liabilities are recognized at the present value of the fixed lease payments using a risk-free rate. Right-of-use assets are recognized based on the initial present value of the fixed lease payments plus any direct costs from executing the leases. Lease assets are tested for impairment in the same manner as long-lived assets used in operations.

Options to extend lease terms, terminate leases before the contractual expiration date, or purchase the leased assets are evaluated for their likelihood of exercise. If it is reasonably certain that the option will be exercised, the option is considered in determining the classification and measurement of the lease.

Costs associated with operating lease assets are recognized on a straight-line basis within operating expenses over the term of the lease.

h. Fair Value Measurements

Promulgations of the Financial Accounting Standards Board ("FASB") have established a framework for measuring fair value, which provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Fair value estimates involve uncertainty and significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially when quoted prices are unavailable. Changes in assumptions or market conditions could significantly affect these estimates.

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Management establishes fair value measurement valuation policies for the valuation of all investments. Annually, at a minimum, management reviews the continuing viability of the valuation techniques used to establish fair value measurements and evaluates and adjusts, as necessary, the unobservable inputs used in the fair value measurements based on current market conditions and other third-party information. The Board of Directors assesses and approves these policies. Any transfers between levels of the fair value hierarchy are recognized at the end of a reporting period.

i. Income Taxes

The Organization has been notified by the Internal Revenue Service that it meets the qualifications to be classified as a tax-exempt entity under Section 501(c)(3) of the Internal Revenue Code. As a not-for-profit entity exempt from income taxes, the Organization may, however, be subject to tax on unrelated business income.

U.S. GAAP requires an entity to assess the probability that a tax position has a “more likely than not” sustainability after review by tax authorities. If a tax position is deemed not to meet this threshold, any unrecognized tax benefits and costs are estimated and recognized. Tax returns are routinely open for review by the tax authorities for three years from their due date. In certain circumstances, the statute of limitations may remain open indefinitely. As of June 30, 2026 and 2025, there were no uncertain tax positions, examinations by taxing authorities, and no related interest or penalties.

j. Compensated Absences

All eligible employees receive their full annual vacation allowance at the beginning of their employment and annually on their anniversary. Upon termination, the employees are entitled to receive payment of their unused balance.

k. Contributions

Contributions are recognized as revenue when they are unconditional, usually when qualifying expenditures are incurred and other conditions under the agreement are met. In addition to conditions under the agreement, contributions are also classified as conditional if there is a barrier that must be overcome before the recipient is entitled to the asset transferred and the donor has the right to request the asset back if it is not used properly.

Unconditional contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor-restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of restriction. Contributions with donor-imposed stipulations regarding the purpose and how long the contributed assets must be used are recorded as net assets with donor restrictions. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities and changes in net assets as net assets released from restrictions. Contributed property and equipment are recorded at fair value at the date of donation.

l. Program Revenue

Program revenue consists of amounts earned from services provided by Real Food Media, a project of Corporate Accountability. The services provided are directly related to and further the Organization’s tax-exempt purpose. The Organization considers its performance obligation to be the media production, strategy content, or other mission driven work provided. As a result, revenue is recognized over time as the performance obligations are satisfied in accordance with the terms of the related agreements.

m. Advertising

The Organization charges the cost of advertising to expense as incurred. For the years ended June 30, 2026 and 2025, advertising costs amounted to $34,345 and $27,398, respectively.

n. Functional Allocation of Expenses

The costs of program and supporting services have been summarized on a functional basis in the statements of activities and changes in net assets. The statements of functional expenses present the natural classification detail by function. Accordingly, certain costs have been allocated among the program and supporting services benefited based on a direct identification basis, where practical, and on a percentage allocation basis based on management’s judgment using time and effort as a cost allocation method.

The Organization’s policy is to allocate indirect costs between various departments based on labor hours, or a percentage allocation based on management’s judgment. Salaries and wages and employee benefits expense allocations are based on an individual basis, based on the functions of each position and the time spent performing in a particular department.

o. Use of Estimates

In preparing the Organization's financial statements in conformity with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

p. Reclassifications

Certain amounts in the prior period financial statements have been reclassified to conform to the current period presentation. These reclassifications had no effect on changes in net assets.

3. Promises to Give

Promises to give consist of unconditional promises to be received by the Organization in future years. All promises to give as of June 30, 2026 are due in less than one year. There were no promises to give as of June 30, 2025.

4. Property and Equipment, Net

A summary of the major components of property and equipment, net, at June 30, 2026 and 2025 is as follows:

	2026	2025
Leasehold improvements	$ 36,328	$ 36,328
Furniture and equipment	148,095	148,095
	184,423	184,423
Less: Accumulated depreciation	(181,868)	(178,641)
Property and equipment, net	$ 2,555	$ 5,782

For the years ended June 30, 2026 and 2025, depreciation expense related to property and equipment was $3,227 and $4,273, respectively.

5. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following at June 30, 2026 and 2025:

	2026	2025
Accounts payable	$ 64,530	$ 61,697
Accrued expenses	289,647	290,525
	$ 354,177	$ 352,222

6. Paycheck Protection Program Loan

In April 2020 and 2021, the Organization received Paycheck Protection Program (“PPP”) loans from the federal government each in the amount of $1,400,500. The loans will be forgiven based upon the Organization using the proceeds on eligible expenses over a 24-week period from the time that the loan is obtained. Eligible expenses include payroll and related benefits, utilities, and rent. In June 2021, the Small Business Administration (the “SBA”), acting on behalf of the federal government, forgave the entire first loan. In April 2022, the SBA only forgave $800,635 of the second PPP loan. As a result, the remaining $599,865 became a four-year term loan with an interest rate of 1% per year. As of June 30, 2025, the amount outstanding was $129,609. During fiscal year 2026, the loan was repaid in full.

7. Line of Credit

The Organization maintained a $600,000 revolving line of credit agreement with a bank. Interest was payable monthly at the financial institution's base rate which could fluctuate at the bank's discretion based on economic conditions. The loan was secured by all assets of the Organization. There was no interest expense incurred during the years ended June 30, 2026 and 2025. There were no amounts due on the line of credit at June 30, 2026 or 2025. As of October 2024, the line of credit was closed.

8. Leases

The Organization leased its previous Boston, Massachusetts, headquarters space on Milk Street under a lease agreement with escalating monthly payments which concluded in January 2026. The Organization also had a lease in Oak Park, Illinois that concluded in June 2026. Due to the large payments at the beginning of the lease, the Organization had previously accrued rent of $176,000, which was netted with the right-of-use asset at the date of implementation of Accounting Standards Update ("ASU") 2016-02, *Leases*.

During fiscal year 2026, the Organization also entered into a new lease for its Boston, MA headquarters on Atlantic Avenue under a lease agreement with escalating monthly payments concluding in March 2028. Beginning April 2026 through March 2027, the monthly base rent is $7,258 and subsequently through the end of the lease the monthly base rent is $7,439. No other payments are due other than the monthly payments.

The Organization's risk-free borrowing rate for a transaction with similar attributes was used to discount the lease payments for the leases described above to recognize the right to use this asset and the associated lease liability. The calculated interest is the assumed interest in the monthly lease payment.

Lease expense consisted of the following for the years ended June 30, 2026 and 2025:

	2026	2025
Operating lease expense	$ 463,305	$ 681,125
Short-term lease expense	4,920	4,760
Total lease expense	$ 468,225	$ 685,885

Future minimum payments are as follows for years ending June 30:

2027	$ 87,647
2028	66,960
Less: Imputed interest	(4,405)
Lease liability at June 30, 2026	$ 150,202

The cash paid for the amounts included in the measurement of lease liability was $399,123 and $745,455 for the years ended June 30, 2026 and 2025, respectively.

The weighted average risk-free rate associated with operating leases as of June 30, 2026 and 2025 is 3.47% and 2.88%, respectively. The remaining lease term associated with operating leases as of June 30, 2026 and 2025 is 1.75 years and 0.6 years, respectively.

9. Net Assets

Net assets with donor restrictions consist of amounts received for Real Food Media, a project of Corporate Accountability and promises to give.

For the years ended June 30, 2026 and 2025, the Organization released $411,453 and $429,091, respectively, of net assets with donor restrictions for expenditure purposes related to Real Food Media, a project of Corporate Accountability. There were no releases of net assets with donor restrictions related to program support for either of the years ended June 30, 2026 and 2025.

10. Retirement Plan

The Organization maintains a 401(k) plan covering all eligible employees. Employer contributions for the years ended June 30, 2026 and 2025 totaled $72,043 and $69,809, respectively.

11. Risks and Uncertainties

Cash

The Organization maintains cash balances at financial institutions, which, throughout the year, exceed the federally insured limit of $250,000. Any loss incurred or lack of access to such funds could have a significant adverse impact on the Organization's financial condition, changes in net assets, and cash flows.

12. Availability and Liquidity

The following represents the Organization's financial assets available to meet general expenditures within one year at June 30, 2026 and 2025:

	2026	2025
Financial assets at year-end		
Cash and equivalents	$ 3,119,569	$ 4,538,688
Accounts receivable	1,122	400
Promises to give	125,000	-
Total financial assets available	3,245,691	4,539,088
Less: Amounts not available to be used within one year		
Net assets with donor restrictions	688,195	648,058
Financial assets available to meet general expenditures within one year	$ 2,557,496	$ 3,891,030

The Organization reviews its cash position on a regular basis to ensure that adequate funds are on hand to meet expenses. Refer to the statements of cash flows which indicate the sources and uses of the Organization's cash. At June 30, 2026, management believes that the Organization has no liquidity issues.

13. Related-Party Transactions

During the year ended June 30, 2025, one board member was paid a total of $28,500. The Organization has a conflict of interest policy that requires each member of the board to sign and disclose any financial arrangements with the Organization on an annual basis. During the year ended June 30, 2026, there were no board members paid by the Organization.

14. Subsequent Events

Management has evaluated all activity of the Organization through October 27, 2026, which is the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the related notes to the financial statements.
